

Frederick W. Brehm deskbooks

The following publications belonged to Frederick W. Brehm while he was an instructor at RIT. The booklets are 5 ½ " x 8 ½ " and have written on the cover "Property of F.W. Brehm." These materials were "rescued" by Richard D. Zakia, a former professor in the School of Photographic Arts and Sciences, when the college was relocated to the Henrietta campus during the 1960s.

Acc. 03:10
