

RAMI historical interviews and radio series transcripts

RITArc.0129

Inventory by Veronica Raco
Updated by Jody Sidlauskas, Jan. 2013

07 August 2012

This collection consists of correspondence, a list of proposed radio programs to be broadcast on a local radio station, WHEC, notes for the radio interviews, and written scripts from multiple radio interviews with Rochester Athenaeum and Mechanics Institute (RAMI) faculty and staff members that took place over several months in 1939. There are thirteen sessions, with the first session highlighting the founding of RAMI, and the last session highlighting the department of Photographic Technology.
