Rochester Wargamer's Association and Guild (RWAG) may have been established as early as the 1960s as RIT's tabletop gaming club. This collection contains materials related to the club, which is still active today. This includes promotional materials, newsletters from the 1980s and 1990s, and mock-ups for some of these newsletters.

This collection also contains program booklets and planning documents for Rudicon, RWAG's annual convention hosted at RIT. Many of these booklets contain a nametag for Eric Derby, however it is not known what his affiliation with the club was.
