This collection came from the Office of Reporter magazine. *Techmila* was the university's yearbook and the *Reporter* is a student published magazine.

The original order was kept as it was found. Re-housing and inventory were completed Mary Cahill. The collection contains eight boxes of negatives and photo prints used in the *Techmila* from 1988-1994. Some of the photos are identified by the photographer's name, we believe these to be student photographers working for the *Techmila* committee. The remainder of the boxes (9-25) are files from Reporter magazine containing negatives, some photographs, and corresponding issues of the magazine from 1979-2002.

Boxes are shelved in CS.S. Shelves 214-215,221,229.
